Paper Filters

BUNN® developed the first flat bottomed fluted commercial paper coffee filter in 1957. We know that consistent paper porosity and filter structure is critical to delivering the same great tasting cup of coffee to your customers, every time.

A special grade of paper is used in every filter, assuring optimum extraction of your coffee's taste. You'll never have to worry about coffee grounds overflowing into your coffee with the filter's superior stay-in-place design.

Selection of coffee filters is a vital step in brewing perfect coffee – don't settle for anything less than BUNN quality coffee filters.

All BUNN filters are made from 100% virgin pulp. They are oxygen whitened, chlorine free and naturally biodegradable. No formaldehyde is used in the manufacturing of BUNN filters. Our supplier does not ship the paper to us until they believe it to be completely safe. Bunn-O-Matic will not buy any paper stock which does not meet high standards of purity.

Dimensions in millimetres

Paper Filters

Filter Type	Product Number	Description	Number per Bag	Bags per Case	Number Cluster	Overall Measure x Base Diameter (millimetres)	Packed per Case	Case Weight (lbs/kg)
Decanter Filters	20115.0000	Regular C, S, R, O, VLPF, VPR, VPS, VP-17	500	2	50	247.65 x 107.95	1000	4.2/1.91
	20116.0000	Regular Narrow C, S, R, O, VLPF, VPR, VPS, VP-17	500	2	50	241.3 x 82.55	1000	4.2/1.91
	20122.0000	Regular Fast Flow C, S, R, O, VLPF, VPR, VPS, VP-17	500	2	50	247.65 x 107.95	1000	4.5/2.04
