A cost-effective solution for superior cold drinks – BUNN JDF-2S

A cost-effective solution for superior cold drinks, the BUNN JDF-2S Silver Series™ delivers either juice or iced coffee at the touch of a button. Designed to serve either frozen or ambient products, including remote bag-in-box, the JDF-2S ensures consistent drink quality from the top to the bottom of every glass with a patented High Intensity® mixing chamber. Only 10 inches (24.9 cm) wide, the JDF-2S saves valuable counter space, complimenting BUNN's 4-hopper model, the JDF-4S.

The JDF-2S is available with either a juice or iced coffee display. Quick-dispense equals customer satisfaction and icy cold juice is assured even during busy times with an 8-pound (3.6 kg) ice bank. The JDF-2S has a flow rate of 1.0 to 1.5 ounces (29.6 to 44.4 ml) per second. Most juice cups will fit the 19.1 cm cup clearance. Easy set-up and accurate dispense are assured with the advanced concentrate pump. Service is fast and simple with a side-hinged door and modular dispense deck. The JDF-2S is a push-and-hold dispense unit, but can easily be converted to a portion-control model by following simple instructions in the manual.

The BUNN Gourmet Juice® has full two-year parts and labour warranty, a three-year parts and labour warranty for the electronics, and a five-year parts warranty on the compressor.

For information about BUNN products, parts and service, please contact BUNN Ltd., 7 Beaufort Court, Roebuck Way, Knowlhill, Milton Keynes, MK5 8HL, United Kingdom or phone (44) 1908 241222, fax: (44) 1908 241224 or email international@bunn.com.
