

Beverage Equipment Systems for
**AMUSEMENT
& LEISURE**

The Amusement & Leisure channel boasts the second-highest consumption rate of frozen beverages in all of foodservice*. However, reliability is just as important as the beverage menu, especially when considering the high service volume requirements and the demanding operating atmosphere. This set of recommended equipment covers every beverage type, is ideal for the Amusement & Leisure channel and addresses customer demand as well as operator profitability.

COFFEE

Serve quality coffee for any plumbing set up, environment, or service volume

Infusion Series®

Achieve a variety of flavor profiles and batch options with programmable Digital Brewer Control, dial in your beverages with USB recipe programming, and tackle any environment with versatile serving options

AXIOM® Brewers

Digital Brewer Control for precise coffee extraction. Brew into decanter or insulated servers.

GRINDERS

Multi Hopper

Portion controlled for the right amount of coffee every time, with 3 batch sizes per hopper

COLD BREW & ICED COFFEE

Smooth cold brew and velvety nitro infusion

Nitron® Cold Draft Dispenser

The BUNN Nitron delivers authentic cold brew taste without a lengthy brewing process, and the Nitro tap infuses your beverages with a cascade of microbubbles, creating a velvety-soft mouthfeel without milk or sugar

FROZEN GRANITA/SLUSHY

Reliably serve delicious, frosty beverages

Ultra® Frozen Systems

The BUNN Ultra 2 provides reliable service and flavor all day long, thanks to durable reverse auger technology

JUICE

Serve orange, apple, cranberry, and other juices with reliable quality

JDF Cold Systems

Cold beverage dispenser with High Intensity® mixing delivers superior drinks

COLD WATER

BUNN refresh® Counter Top

Cold purified water, dispensed sparkling or still

BEAN-TO-CUP

Our single cup platforms offer high quality beverages for every taste, using a fresh and appealing Bean-to-Cup process

Sure Immersion®
Cup after Cup of fresh, expertly extracted coffee
